## Final Individual Tax Deadline Reminder!

### Beat the Oct 15th Tax Extension Deadline!

The October 15th tax deadline is right around the corner for folks who filed for an extension back in April.

Don't forget, if you filed for an extension (Form 4868) on your 2006 individual tax return, you need to file your taxes before the October 15th Tax Deadline.

### CAUTION!

An extension of time to file a tax return still does not constitute an extension of time to pay any tax liability. Penalties and interest accrue from April 17<sup>th</sup>, if the tax liability has not been paid.

### It Is Not Too Late To File Your Taxes!

To schedule a tax appointment or for more information on filing, please contact [Glynn Accounting & Tax Service](#).
